8 Shredded waste discharge

## Security Measures

Read the Manual: Familiarize yourself with the operator's manual.

Training: Ensure operators receive proper training.

PPE: Use appropriate personal protective equipment.

Inspection and Maintenance: Regularly inspect and maintain the machine.

Secure Work Area: Establish a safe work zone.

Machine Placement: Position the shredder on level ground.

Emergency Shutdown: Know the shutdown procedure and location.

Feeding Material: Follow guidelines and stay clear of the feeding mechanism.

Maintain Safe Distance: Keep away from the feed chute and discharge area.

Supervision: Assign a responsible supervisor.

Communication: Establish clear communication between operators.

Fire Safety: Have fire extinguishers nearby.

Secure the Machine: Lock the shredder when not in use.

Reporting and Documentation: Report incidents and maintain records.

Emergency Response: Have an emergency response plan in place.
